Zimmerman Metals Inc.

WS-1000 WALL & SOFFIT PANEL MACHINE

Machine Specifications:

Length: 120"
Height: 25"
Width: 44"
Weight: 2,800 lbs.
Power: 5 HP 220 VAC 3PH
Electric Motor
Drive: Hydraulic/Gear & Chain
Speed: 60 feet/minute
Shear: Hydraulic
Coil Width: 16" for 12" Panel
20" for 16" Panel
Materials: Steel to 22 ga.
Aluminum to .032"
Copper to 20 oz.

Optional Equipment

Perforation Assembly
Gasoline Engine
Tandem Axle Trailer
Vinyl Cover
50' Variable Height Run-Out Stands
Striation Roller Set
Digital Batch Controller

Standard Features:

Form Both 12" & 16" Wide Panels
304 Stainless Steel Tooling
Industrial Grade Hydraulic System
Notching Hydraulic Shear For Easy Assembly
4,000 lb. Capacity Expandable Decoiler With Brake & Stand
Stiffening Ribs
Limit Switch Measuring Device
Hand Held Remote Controls

Expandable Spool Decoiler
